Average hide size: 16 sq. ft.
Hide thickness: 1.1 to 1.3mm

Aniline dyed cowhide.

A special decorative film is applied to the leather prior to tumbling.

Due to the special process and characteristics inherent to leather, hide shape may be elongated and all hides will have variations in color, texture and sheen.

Leather is a natural product and dye lots will vary.

Leather not guaranteed against wear, fading or dye lot variation.
CFA Recommended.

Note: 1 hide minimum.
